

The Rangers will now meet the Grand Prairie Red Devils in the final for the Utility Cup.

A. T. A. MEETING

The Grand Prairie branch of the A. T. A. will meet in the Grand Prairie High School on Saturday, March 4, at 2:30.

In discussing the new warehouse with the Tribune reporter, Mr. Thorp observed that the warehouse represents a real deal of money and is evidence of the faith we have in this country."

The firm is also agent for Willys and Nash cars, and the famous Delco Light and Winchager farm lighting plants.

THE NORTHERN TRIBUNE
AN INDEPENDENT WEEKLY

Published every Thursday at Grande Prairie, Alberta.

The Tribune's aim is to thoroughly "cover" the local news field with fairness to all sections and to give the many advantages of a home land. All news printed without intentional distortion. The paper's opinions are expressed only in the editorial column.

Letters for publication are welcomed. A pen name may be used, but correspondence must also give the proper names, not necessarily for publication, but to evidence good faith. In publishing a communication the Tribune does not imply agreement.

Legal and other advertising rates furnished on application.

Subscription Rates: One Year, in British Empire, \$1.50 (one year, in United States, \$2.00). J. B. YULE, Editor.

THURSDAY, MARCH 2, 1939

THE SPANISH SITUATION

In its issue of February 18, The Tribune published an editorial under the heading, "Spain Another Piece of Appeasement to the Dictators."

There seems to be some criticism in some quarters of the views expressed.

The contention of The Tribune was and still is that the war in Spain was basically economic and not religious.

Whether The Tribune's predictions regarding the outcome between the democratic nations and the dictator countries are right or wrong time alone will determine.

There is one thing certain, The Tribune refuses to be drawn into a purely religious controversy.

ALBERTA PRODUCTION

That products in Alberta other than wheat are of considerable value is indicated by figures published in the February 18 number of The Budget.

The figures are for 1938. The entire farm production is given as \$173,686,103, a reduction of \$19,753,093 as against 1937.

In the field crops wheat tops the list at \$82,840,000. This with other cereals brings the total up to \$105,068,000.

The value of other crops given are: Root crops, \$2,247,000; fodder crops, \$1,045,000; dairy products, \$17,871,321.

Miscellaneous production is given for the following: Apples, \$1,000; Honey, \$140,000; wool, \$228,840; poultry products, \$7,340,000; animals slaughtered and dressed, \$2,200,000; game and furs, \$1,150,013, making a grand total of \$136,454,781.

It will be seen that the above figures that while wheat occupies the top bracket, contrary to the opinion of many, other crops are of considerable value in farm production and indicate that farmers are making advantage of the natural conditions of the province for mixed farming.

Along the Trail

By J. B. YULE

HUMANS BURROWING IN THE GROUND

Some one recently said that cities in the future will be dug deep into the ground instead of on top, due to the invention of bombing planes.

This may not seem such a hardship as one on first thought may imagine. Historians tell us that the cave man of man's development he lived in caves, so that all that will be necessary is to reverse the gears and we will be back where our forebears were, with, of course, a little more comfort.

How athletic, rugged, and healthy and skating rinks are going to be provided will be figured out by the engineers.

But to get back to the cave man, a gentleman have always admired because he had plenty of courage and combativeness. He was not only long on courage but also on hair. He might have been a bit uncouth from a modern standard, but when it came to rustling grub he was one hundred per cent efficient.

No doubt his home was not over-lodged with furniture with the result that his wife did not use the greater part of her time running round with a broom.

It is true, it is true, that the distance that the wife had much time for her hands, as the grub was eaten raw.

Like the modern woman, she kept close watch on the grub. The check-up, it is understood, was made each night and if the grub was running low the going was made for the fact known to her husband by the medium of the grunt method, language being not evolved at that time.

Friend hubby took a note of it and at dawn he was gone, carrying a club to kill their breakfast.

With such a background, it will be very easy for the people of today to adjust themselves to life underground.

LARGE NUMBER OF CHILDREN TODAY NOT GOOD SPELLERS

There are a lot of justifiable complaints against the results of our modern education, and one of the latest is that is youngsters today are not good at spelling—a rule. Of course there have always been those who do not master spelling, but the deficiency seems more marked today.

Youngsters today are undoubtedly more advanced than youngsters of the past, but at the same time, they are not so good at spelling, as so, perhaps spelling must suffer as a result of the greater general knowledge.

LARGE NUMBER OF CHINESE GUERRILLAS LOYAL FARMERS

Much is heard from time to time about Chinese guerrillas and how they harass the Japanese armies, only a small percentage are farmers and even the latter are loyal to China. The fact is that a very large number of the guerrillas are Chinese farmers determined to do all they can to free their country from being conquered by the Japanese. They are a sort of militia, and they are very clever.

They are largely offered by young Chinese, many of whom are educated in America.

The Tartar several centuries ago, often ate books in an attempt to acquire the knowledge in them.

Dad's Notions

By E. S. Stanley

The scorn of age-old virtues is with peril.

One variety of our strawberries soon suffered from drought last summer. The situation was such that watering them from our creek.

In mid-season, however, the stream ceased flowing, and the pools were there and served us well all the water-level got so low that time, though, the picking season was nearly over.

The run-off of this rivulet never reduced the pools in its bed; nor did the pools reduce the flow after they were filled. The reserve of water was kept intact for emergency.

What an eloquent lesson on thrift! Though Nature lavishes her gifts, she is a conservationist. To conserve moisture she gave her forests a spongy floor and a valued forest the beaver to dam the watercourses.

Nature saves. Should she cease saving just one year, and the world would be extinct. She stores vitality in your frame, which serves as your defense.

Abundantly she stores the life-force and vitality in the seeds and flowers for winter's sleep, and at the spring's reveille sound they leap forth, one year and the world serves kept replete, the woods withstand the storms, and grass and flowers flourish.

So intent is Nature on preserving her handiwork she has given to the life a little of her own life. This gives her their habits that they might not destroy their vital reserve and become extinct.

But man is the object of Nature's supreme solicitude. Beside all else she gives him that which is most precious and with it the gift of choice. These supplant instinct.

With new gifts of reason and of choice he is made responsible for his own welfare and existence—for every gift has its responsibility.

He is also made responsible for the welfare of his fellow man, for he is to prosper or suffer according to the wisdom or folly of his rule.

But man is the object of Nature's supreme solicitude. Beside all else she gives him that which is most precious and with it the gift of choice. These supplant instinct.

our own thoughts, and to evoke the best in the sub-conscious mind. There are two attitudes, at least, that are helps to this end: one is "closed eyes" and the other is "open eyes." There is never concentration of thought with a restless eye.

Suppose you are an over-eating, as your father has been. After you have relaxed till you know you are relaxed, then close your eyes and slowly and with deep earnestness something like this:

"I can feel my servant. I can feel health and not for taste alone. I have control of taste impulses. I quit eating at last. I should know the thrill of a well that rules."

Form the spoken thought to fit your need, whether it be regarding habits or things to achieve. To tell your gaze be at one of your own eyes in the mirror may help.

This stimulates the formula once so popular—Every day in every way I am getting better and better—by Dr. Coue, I think.

This drill, practiced three or more times a day, will swing your inner forces to your aid, and you may be surprised to find yourself realizing your own self.

"I am the master of my fate; I am the captain of my destiny." With love, FATHER.

IN THE TRIBUNE'S MAIL BOX

AN ANSWER TO MR. PEARSON'S LETTER RE TECHNOCRACY

Dear Mr. Pearson: I have read your letter and am glad to hear that you are so interested in the subject of technocracy.

It looks as though Mr. Pearson has dropped a bomb in my path and it is up to me to grasp it and shake it to pieces.

Since, happily, I am credited with having a sense of humor—to which I am entitled—I will try to do so.

It is a pity that Mr. Pearson has not been able to find a better word than "technocracy" to describe the system he is talking about.

Now, I am going to clear up some of the points raised by Mr. Pearson. I am going to do so in a way that will be as clear as possible.

One of the points raised by Mr. Pearson is that technocracy is a system of government in which the experts rule.

Now, I am going to clear up some of the points raised by Mr. Pearson. I am going to do so in a way that will be as clear as possible.

One of the points raised by Mr. Pearson is that technocracy is a system of government in which the experts rule.

LET'S TRY ANCE

AT THE TR

By I. V. Macklin

"Let truth and falsehood grapple. Whoever follows the truth will have a credit, somebody else has got to have a debit."

A dictatorship gives economic security, just as slavery and the feudal system did. But can we get economic security without religious, religious, personal, or political freedom? The C.C.F. says yes, it is being done in New Zealand and the Scandinavian countries.

"Socialism will never be accepted by a people with its eyes wide open," was a statement made by the speaker.

The city of Edmonton is half Socialist now. It runs its own telephone system, its own water supply, its own power and light. It had \$700,000 profit one year to use for the city's own purposes.

Truth is the goal toward which, I think, we are all moving. There are a few items, like the padlock law and Franco on which, if the views of the speaker are correct, we need further information. I should like to hear in detail wherein my views are correct and wherein they are not.

In the middle ages, to differ in ideas from one another was often to invite the stake or the rack and the thumb-screw. In the modern world, to differ in religious views was to invite the stake or the rack and the thumb-screw.

Perish Mr. Pearson's "tiny seed" (Organizer for Technocracy Inc.) Hualien, Alta., Feb. 27, 1939.

Replies to Mrs. M. Storm's Letter in Tribune's Last Issue

Editor of The Tribune:

Weekly News Letter From Parliament B'dgs, Ottawa

By RENN PELLETIER, M.P.

A BATTLESHIP IS LAUNCHED

OTTAWA, Feb. 24.—I listened to the broadcast of the launching of the new battleship, "H.M.S. King George V."

Upon a platform especially built for the occasion stood their Majesties, surrounded by the highest officials of church and state. In a deep and touching voice a prelate of the church intoned the Lord's Prayer. The voice and the words are vivid still.

"Our Father, which art in heaven, Hallowed be Thy Name, Thy Kingdom come, Thy will be done on earth . . . and with those words a thousand feet of armored steel, built to maim and destroy human flesh, slowly slid into the grey waters of the River Tyne. Thirty thousand tons of destruction, capable of vomiting murderous explosives and spreading agonizing death by water, were launched for the first time, with the blessing of God.

"Thy will be done on earth." I wonder if this is His will. Perhaps not any longer than a few days ago, somewhere else, in another part of the world, another king, or a dictator, or a president, was also asking the blessing of God upon a similar engine of death.

I sometimes think that God must become bewildered; but, upon reflection, I believe that it is we humans who are bewildered. In our praying, we call for the blessing of God upon the things we build to destroy each other.

"Thy will be done on earth." Will we think of that when this mass of armor plate, which God was asked to bless, rams another similar instrument of destruction, which God was also asked to bless, and sends a thousand men to a suffocating death in a watery grave? When the next battleship is launched, will we have caught the true meaning of our words or will we join again with His Majesty in saying "May God bless and those who will serve upon you?" I am afraid we shall.

Every nation bitterly resents any suggestion that its armaments are for purposes of defence. It claims emphatically that such preparations are precautions only.

Such an increase of armaments is intended in each nation to produce a sense of security, but it does not do this. Instead, it produces a consciousness of the strength of other nations and a sense of fear. Fear breeds suspicion and distrust, and every other nation believes that the precautions of one nation are evidence of hostile intent.

And so, we will again ask the blessing of God upon newer and more cunning methods of destruction. We will continue being proud of our might and strength. It is said that we are helpless, that we must arrange for our defense. Possibly this is quite true, but we must realize when such things are concerned that we do not mean it when we say.

"Thy will be done on earth."

BUSINESS OF THE HOUSE
This week has been almost exclusively occupied with the debate on the Trade Agreement, which is continuing. There is not much new in this that I can say. The speeches that are now being made are simply a repetition of what has been said, either by the Minister or the leader of the Opposition.

For 44 Years Vicks Vapo-Rol has been used by a Board of Physicians.

ESCAPE FROM MISERY OF COLDS

Use special Vicks Vapo-Rol for colds and coughs. It's the only medicine that goes to the throat where most colds start.

Helps prevent colds developing—don't wait until a miserable cold develops. At the very first sign of a cold, sniffle, or nasal irritation—put a few drops of Vicks Vapo-Rol in your nostrils immediately. Used in time, Vapo-Rol helps to prevent the development of the cold.

Used in more homes than any other medicine of its kind.

States-Canada Trade Agreement. He decided to show that this agreement would not result in a great victory towards peace. He related that an agreement such as this would not be a great victory towards peace. He related that an agreement such as this would not be a great victory towards peace.

At the present time, he claims that this agreement constitutes an immediate lifting of the Liberal pledge to the party at the time of the last general election. He said that while in itself it is not a complete implementation of the pledge, it nevertheless carries out the undertaking given by the Liberal party to the electors of Canada. His main contention, however, was that apart from material benefits it was a great step towards peace.

Dr. Manion, the leader of the Opposition, asked for a delay of two days in order to reply to the speech of the Prime Minister. This delay is usual and is always granted to the leader of the Opposition to make what party is in power.

It is not surprising that attitude of the Opposition is one of concern. It is striking to note that Canada has had a favorable trade balance since 1929 and 1930. From 1931 until the present time, the Dominion has been favorable to the extent of over \$400,000,000 in the peak year of 1936.

In a paragraph entitled "Obstacles to a free trade agreement," the well-set out. It reads as follows: "The chief obstacles to such an agreement are obviously provided by the interests of Dominion farmers dependent on the British preference. The point is that the producers who are particularly affected."

It reads as follows: "The chief obstacles to such an agreement are obviously provided by the interests of Dominion farmers dependent on the British preference. The point is that the producers who are particularly affected."

It is not surprising that attitude of the Opposition is one of concern. It is striking to note that Canada has had a favorable trade balance since 1929 and 1930. From 1931 until the present time, the Dominion has been favorable to the extent of over \$400,000,000 in the peak year of 1936.

In a paragraph entitled "Obstacles to a free trade agreement," the well-set out. It reads as follows: "The chief obstacles to such an agreement are obviously provided by the interests of Dominion farmers dependent on the British preference. The point is that the producers who are particularly affected."

went into the A division. More Whitefishes were obtained from the self-fed hogs than from the other feeder does not lead to too early maturity nor to the development of an excessively short, pig-like body.

There was a decided saving of labor and energy in the self-fed hogs. The cost of any excess grain lost from the feeder is more than made up by the savings for the pigs. By using the self-feeder where enough pigs are fed to warrant the use of a self-feeder, increase his income by cutting down on the labor charge and getting his hogs away to market much faster.

At the present time, he claims that this agreement constitutes an immediate lifting of the Liberal pledge to the party at the time of the last general election. He said that while in itself it is not a complete implementation of the pledge, it nevertheless carries out the undertaking given by the Liberal party to the electors of Canada. His main contention, however, was that apart from material benefits it was a great step towards peace.

Dr. Manion, the leader of the Opposition, asked for a delay of two days in order to reply to the speech of the Prime Minister. This delay is usual and is always granted to the leader of the Opposition to make what party is in power.

Potpouri

"The time has come," the waltz said,
To talk of many things;
Of shoes and ships and sealing wax;
Of cabbages and kings."

Someone has asked me, "Why don't you confine your efforts to discussions of 'Potpourri'?" Well, the truth of the matter is that I am not a very good writer. I would like to write a number of things I would like to write, but I am not a very good writer. I would like to write a number of things I would like to write, but I am not a very good writer.

"When I have fears that I may cease to be,
As my pen has gleaned my
Trembling brain"

And, as I have intimated before, we cannot all be gifted with the brain of a poet. I am not a very good writer. I would like to write a number of things I would like to write, but I am not a very good writer.

Interesting News From Sexsmith

Vol. VII. No. 37 By R. A. MACLEOD February 28, 1939

Ice Carnival Has Best Ever Held At Sexsmith

Five Program Of Sports Run Off—Crowning Of Queen Was Colorful Event—While Show Was Going On In The "Big Top" The Big Sideshow Taking Place In Curling Rink.

The District Ice Carnival held at Sexsmith on Saturday, February 26, was without doubt the best ever held in this town.

We take time out to express the appreciation of the rink committee to all those who helped to make this event the outstanding success that it was. This appreciation is also extended to all who helped by their patronage, quite a number coming from a considerable distance. We think that Jack Meen and Frank Summer deserve a number of prizes as they were on deck from 1 p.m. until midnight, only taking off a few minutes to stretch a cup of coffee and a hot dog.

The rink was a riot of colors and flares, colored lights and Chinese lanterns.

Skating Races

The opening event was the ski races, which were started by John Olson, assisted by Mr. Meen. In the 12 and under class, Emil Blendaard; 2nd, Ed. Blendaard; 3rd, Ed. Stalberg. The also came in in the following order: Harold Skarberg, Harold Olson, Rold Olson, Raymond Lee, Fred Olson, Jackie Roberts, Barr, Billy Roberts. Florence Lee is only five years of age, which is not a bad showing for one who finished the course in this race received a prize.

Sixteen and under—1st, S. Haakstad; 2nd, K. Skarberg; 3rd, A. Skarberg. Seniors—1st, E. Bjorstrom; 2nd, I. Elinson.

Juvenile races started at the rink at 2 p.m.

Miscellaneous Awards

Family coming from the greatest distance was that of Mr. and Mrs. E. Teepee Creek, and he received 100-pound sack of flour for his trouble. The rink was given to Mr. A. Spaul, there being ten members, and he also received a prize.

Juvenile Costumes

At 2:30 p.m. the juvenile costumes were judged by Mrs. J. A. Weicker, Mrs. D. Sutherland and the Rev. H. E. Webb, with the following results: Boys under 10—Jackie Roberts, as Donald Duck; 2nd, Fred Olson, as a girl; 3rd, Billy Roberts, as a girl. Girls under 10—Audrey Nels, old lady. Prize, sweater.

Couple under 10—Billy Roberts and Alan Turner, Gold Dust Twins. Prize, boxes of chocolates.

Best couple under 10—Ruthie McNaughton, as a colored mammy, and Shirley, as a colored gentleman. Prize, watches. Boys 14 years and under—Eddie Stalberg, Spaniard. Prize, hatched with case.

Girls 14 and under—Isabel Smith, Eskimo. Prize, sweater.

Comic couple—Lena Summer and Margaret McNaughton, as a colored couple. Prize, suspenders. Comic single—Dolphine Brown, Bunny Rabbit. Prize, hat. Most original costume—Olive Fote, Sonja Henie. Prize, snapshot album.

Broomball

Broomball game played in comic costumes, Indian and Colored Gentlemen. The Indians won this event and were awarded a case of chocolate bars.

The game was refereed by Fred McNaughton, who was not in costume.

Hockey

Four-thirty saw a game of hockey between Sexsmith and Grande Prairie, with the latter winning by a score of 3 to 2. For Grande Prairie the scorers were—Eddie Stalberg and Miller, and for Sexsmith Ross and Fote.

Bob Shaw handled the game.

At 7 p.m. Grande Prairie played with Clairmont, and won again successfully, winning by a score of 5 to 2.

Pantomime and Tableau

After the hockey game a pantomime, called the "Fishing American," was put on by about twenty boys and girls, in Indian costumes, and the game would have ended the only for an oversight on Mr. Muttart's part. Ed. Stalberg was slowly but firmly pushing one of his own on to the button, and had nearly succeeded when Felix Guertin, who was holding the broom, happened to look around and saw the act. According to the ruling of the referee, this shot could not be allowed, owing to the fact that Mr. Carney had been seen doing it by one of his opponents.

The game finally ended with the Workers one point up, and it was decided to have a return match in the near future.

NEW AMPLIFIER ORDERED

The rink management has sent out for a new amplifier, so it is expected to have music again at the rink within a very short time.

"THE 39 STEPS" AT KIRSTEIN'S HALL, THURSDAY, MARCH 9TH

Stan's Shows will present "The 39 Steps" starring Robert Donat and Madeleine Carroll, at the Kirstein's Hall on Thursday, March 9. This play is taken from the book written by John Buchan, better known to most people here as Lord Tweedsmuir, Governor-General of Canada.

Best couple costume—Mrs. Pat Graham and Miss Doris Fote; prize, towels.

Most original costume—Ida May Hausman, "Scotty Dog"; prize, table lamp.

Best comic group—Mule with darkie attendants (Miss E. Macleod, Miss Pronovost, Miss Fote, Miss Prevost and S. McMillan); prize, cocktail shaker and tumbler.

Extra comic prize—To Miss J. Haakstad, Mrs. Shaw and Mrs. J. McNaughton, "1909—born thirty years too soon."

Hard time costume—Miss Fraser, Teepee Creek; prize, Premium ham.

Best costume—High school Miss Doris Fote, Dutch Girl; prize, cutex nail set.

Best Skaters (Couple)
First—Mr. Bert Smith and Miss Hattie Warren; prize, box cigars and cake.
Second—Mr. Skoriski, and Miss Doris Fote; prize, clip and towel.
Third—Mr. Bob Shaw and Miss Gwen Wilson; prize, ornament and talcum powder.

Result of Voting
In the voting for the Carnival Queen there was a total of 1,194,000 votes cast. Miss Viva Warden of Sexsmith winning out with a total of 393,000. Miss A. Pronovost received 315,000, Miss Violet Maples 282,250, and Miss Joan Cournd 203,250.

Miss Warden was crowned at 9 p.m. Mr. Wm. Shannon, the Mayor of the town, officiating. Mr. Wm. McNaughton, in a short talk, expressed the appreciation of the rink committee for the help given by the town and district towards the full attendance at the Carnival.

The Carnival Queen was the recipient of a blanket coat and hand bag with initials. The other three girls each got a hand bag and initials on it.

In the vote for the school, Buffalo Lakes beat out with a total of 238,250. Equity came next with 234,000; Teepee Creek, 231,250; McHenry, 164,250; Mount Star, 149,000. Other schools and blanks made the other 177,750 votes.

Men's open race—1st, Bob Shaw; prize, shorts.

Ladies' open race—1st, Gwen Wilson; prize, onion chopper.

Men's relay race—1st, Grande Prairie hockey team; prize, four boxes of 50 cigarettes.

Men's obstacle race—1st, Buster Brown; prize, cigar.

In the gate ticket draw, Lena Obimowska was the lucky one, with Mr. Ed Barker winning second prize. The prizes were a camera and foot stool, respectively.

"Sideshow" at Curling Rink

While the big show was going over in the "Big Top" at the skating rink, a sideshow was taking place in the curling rink. This was the game of curls between the Boys and Girls Brigades, represented by Bill Smith, Ed. Carney, Ivan Redwood and Joe McNaughton, and the Girls by Ed. Stalberg, Spaniard, and Ed. Stalberg.

This game was run under the catch-as-catch-can, or Australian rules, which is a cross between curling game and a hockey game. The object was to get the rocks into the house by whatever means you could. Kicking your own rocks in, or your opponents' out, was quite all right, providing you were not caught at it.

The game started quite decorously, but after several trips to the pump, house, where light refreshments were served, the boys and girls changed. Bill Innes, things started to change up a bit. The first penalty was given to the boys when they tripped Ed. Carney. He protested that it was unintentional, but no one believed him so he was out for two minutes.

In the third period, or rather the third round, Ed. Carney and Felix Guertin's broom from behind and guided him into the boards, for which he drew a major. In about a minute Ed. was back on the ice again, and said the scoring was not water. He had been off the ice minutes. This was a gentleman's game and every body was his own timekeeper.

At this stage of the game Jim Welsh could not stand the strain any longer and abdicated in favor of Ed. Sharp. While the exchange was being made both teams called for time, for the boys were not using a pump, after which the game was resumed.

At this juncture of the game the Workers were a few points ahead, but the Boys of the Old Brigade, with renewed vigor, put a power play, and tied the game.

Some of the boys were having optical illusions, as several complained that the skip was holding their rocks half-way between the two, resulting in some miraculous shots.

Coming home on the last end, both rinks were running neck and neck, with the Workers only a point ahead, and the game would have ended the only for an oversight on Mr. Carney's part. Ed. was slowly but firmly pushing one of his own rocks on to the button, and had nearly succeeded when Felix Guertin, who was holding the broom, happened to look around and saw the act. According to the ruling of the referee, this shot could not be allowed, owing to the fact that Mr. Carney had been seen doing it by one of his opponents.

The game finally ended with the Workers one point up, and it was decided to have a return match in the near future.

NEW AMPLIFIER ORDERED

The rink management has sent out for a new amplifier, so it is expected to have music again at the rink within a very short time.

"THE 39 STEPS" AT KIRSTEIN'S HALL, THURSDAY, MARCH 9TH

Stan's Shows will present "The 39 Steps" starring Robert Donat and Madeleine Carroll, at the Kirstein's Hall on Thursday, March 9. This play is taken from the book written by John Buchan, better known to most people here as Lord Tweedsmuir, Governor-General of Canada.

FAUST NEWS

MR. FURGUSSON HOME FROM HOSPITAL

FAUST, Feb. 27.—Ending six weeks in the hospital at High Prairie because of pneumonia, Furgusson is at home here, well on the way to recovery.

GETS FIFTY-DOLLAR PRIZE

John Bajer entered a success story contest over two years ago from which he received the second prize the other day of fifty dollars. A Polish newspaper awarded prizes for the best success life-stories of those having migrated from there.

Bob Laidly, fisherman, presents a startling appearance with an inflamed swollen face. He has no idea what is the cause—looks like poison.

INDUSTRY GROWING AT FAUST
Matson brothers are preparing to install a sawmill, which will make three sawmills for Faust. By the second garage for Faust is almost finished and ready for operation, located at the old (Mofford Beamish) residence west of town.

The third fish company for Faust, established not many months ago, is storing ice in the building they have just constructed—"The Fish Company," located at the old (Mofford Beamish) residence west of town.

The United Fishermen of Faust have already finished their ice harvest.

TEACHER AND BRIDE GIVEN "SHOWER"

A shower was given to Mr. McCullum, the teacher, and his bride on Wednesday evening of last week, at the home of the bride's parents, Evonick and a clock by the students of all grades among the many nice and thoughtful gifts.

Their wedding dance on Friday evening was attended by a very large crowd.

W. A. NOW HAS 17 MEMBERS
A. S. of held their monthly meeting at T. A. Davies' Wednesday. The six new members recently added make 17 in all. The initiation of the new members will be next Thursday.

SERVICES EVERY THURSDAY
Every Thursday, at 3:45 p.m., during Lent, services will be held in St. Paul's by Miss Mallam, the deaconess.

PLAYS WERE HUGE SUCCESS

Two one-act plays were put on by Miss Mallam, under the able direction of Mr. McCullum, Tuesday evening of last week. The success of the proceeds of these plays and of the dance, which was held at the regular business was attended to the work for the coming term was given to the members.

Under the pretense of "lunch not quite ready," one of the most enjoyable sing-song period. This gave those in charge an opportunity to the house by whatever means you could. Kicking your own rocks in, or your opponents' out, was quite all right, providing you were not caught at it.

ALONG THE WAPITI

By Junius

ALONG THE TRAIL, Mar. 1.—Owing to the uncertain weather, and the extremely cold weather with my own condition, I missed last month's news.

NOTES OF THE W. I.

The card party in the school-house on February 27, the storm was a flop, only four turning up.

The card party at Mrs. Van Schaick's, although cold was better, four tables.

The monthly meeting on the 23rd, held at Mrs. Van Schaick's, six members attended. Routine business took up the time of the meeting. A most enjoyable lunch was served.

On Saturday, the 25th, a card party was held at the home of Mrs. Brumpton. Miss Peggy McCallister and Mary Brumpton were joint hostesses.

Mrs. J. C. Maclean, ladies first; Thom Fredericksen, gentlemen's first; Mrs. J. C. Maclean, ladies first; Thom Fredericksen, gentlemen's first; Thom Fredericksen, ladies first; Thom Fredericksen, gentlemen's first.

Don Joyce, gentlemen's consolation. Some twenty attended. Not bad considering the roads.

Everyone sympathizes with Mr. and Mrs. Maclean's with their anxious time, with their young son Harold in serious shape at the Municipal Hospital.

Also to Mr. Ed. Woods, Mrs. White and family, who are in the Municipal Hospital, they both soon be out and home again, fully recovered.

Louis Hawkes had the misfortune to lose a valuable horse on the 25th. Mrs. J. C. Maclean celebrated her birthday on February 27. Several friends in through the day and not minding the cold, came to her home for the most pleasant visit from Mr. and Mrs. George Watson and family.

After a most enjoyable time at cards, managed to drive them home at 1:30 a.m., through about a foot of snow and still smiling.

Glad to report that all wells are picking up.

Bill Davies and wife drove to card party at Brumpton, with Mrs. Maclean.

The teams are at last busy hauling coal. Trucks are out for the present.

Harry Hodgson is busy saving wood.

Miss Peggy Gerow is visiting Mrs. W. Davies.

Mrs. White returned from Grande Prairie on last Friday's train.

C. Sutherland is busy hauling ice and wood for the Wapiti school.

Mr. and Mrs. Cahoon were visitors at Maclean's on Sunday last.

HUALLEN NEWS

ENJOY JOLLY VALENTINE PARTY

HUALLEN, Feb. 26.—Mrs. V. C. Flint was hostess to the Lower Beaver Lodge C.G.I.T., who held a jolly Valentine party at her home last Tuesday evening. Games, singing and a beautiful lunch all contributed towards the swell time.

The Misses Madeline, Lechell and Kay Kirkpatrick; Messrs. Al Trux, Eddie Schadeck, Ken Edger-ton, Marion Grubb and Don Sherer.

BRING HOME THE JEWELRY
Loaded down with silver plate, the Clow rink returned from the Beaver Lodge spiel winners of second place in two competitions.

A blanket was hung in a corner and here the ladies hid, with only the top of their heads visible. The auctioneer to the highest bidder. Needs that below are good, good price, as well as the lunches and articles sold after.

A special fund for the dance was raised for the dance. Tickets were sold and a pair of gents' and ladies' auctioneer to help swell the fund.

Geo. Payne left on Tuesday's train for University Hospital, Edmonton, where he will receive treatment.

The Rev. S. G. West held Sunday service at 2 p.m. in Caravan Church. His morning service at the same place was well attended.

BRAVE YOUNGSTER TRAVELS FROM ORIENT T LIVE IN CANADA

Six-year-old Edward Halsall, China-born son of a former British naval officer, patterned down the gangplank of the "Empress of Japan" at Vancouver recently, after voyaging across the Pacific Ocean by himself, to start life anew with a nation of people he had never seen before. Bare-kneed, blue-eyed, and with the harbor wind ruffling his blond hair, Edward solemnly introduced himself to his new guardian, Mr. Edward Halsall (left), of Chilliwack, B.C., who is his uncle. Displaying strong youthful determination, the young lad took quite a fancy to J. Shaw (right) tourist class steward on the liner, and definitely refused to have anything to do with anyone aboard, including the captain, stewards, officers or passengers.

Jim Evans and D. W. Pratt left on Friday on a business trip to Edmonton.

The following were visitors to the Prairie from the west area on Friday: Norman Leslie, Dimsdale, Herb Brough and Mr. and Mrs. S. B. Allison, Lake Saskatchewan; "Scotty" Boyd, Beaver Lodge.

Mr. and Mrs. D. M. Noyes of Dimsdale, accompanied by their little daughter, were visitors in Grande Prairie on Friday to see their eight-year-old son, Harold, who has been critically ill in the Municipal Hospital. Mr. Noyes returned home on Friday's train, but Mrs. Noyes stayed over in order to see her boy who is making good progress towards recovery.

Louis Soroka arrived at Grande Prairie on Friday after over two months' visit at the Coast and in Edmonton. While in Edmonton he heard the famous "Ukulele" singer, Mychaylo Holynsky, who singing he described as wonderful.

John Smith of Lake Saskatchewan was in Grande Prairie on Friday, picking up the prizes for the winners at the bonspiel at Lake Saskatchewan, which was in progress and in which nineteen rinks were competing.

Mrs. D. W. Pratt entertained at tea Saturday afternoon in honor of Miss M. Dalgleish.

Miss Jean Bell entertained at dinner and theatre party in honor of Miss M. Dalgleish on Friday evening.

The Two-Table Bridge Club met at the home of Miss H. Hedman Monday night. A presentation was made to Miss M. Dalgleish, who leaves on Friday's train to take up her new position at Calgary.

Mrs. Art M. Smith was the guest of Mrs. L. C. Porteous during her stay in Grande Prairie after speaking to the Women's Liberal Club on Friday night, February 24.

Mrs. E. Elsey celebrated her 83rd birthday anniversary Thursday, March 2. Many friends called to chat with her over teasups and wish her many more happy birthdays.

The Junior C.C.L. had a very jolly party in St. Joseph's school on Friday evening. Various amusing and competitive games were played, a sing-along made the rafters ring, and the Study Club group put on an interesting "broadway show of the Dark Ages." Eileen Murray took the role of narrator; Sophie Halwa, Roman priest; Francis Halwa, Claudius; Mary Campbell, Marcus; Marjorie Ganz, Bartimeus; Margaret Vinet, Rebecca; Theresa Tounsmant, Timex; Edna Pike enacted the role of Christ; and Annie Deidrich the Roman legionnaire.

Mr. Freebury's class, Grade VI at Montrose, entertained Mayor Lawlor, ex-Mayor Tooley, School Inspector L. A. Walker and their mothers on

Tuesday afternoon with a very interesting enterprise community life program, the highlights of which were a council meeting, and scenes in full costume of King John signing the Magna Carta.

The Senior C.W.L. will meet at the home of Mrs. D. O. Carroll on Tuesday evening.

The Art Club held their usual intensely interesting monthly meeting on Thursday evening, with Miss Betty McNaught teaching and criticizing, and finding much to praise.

On Wednesday evening Mrs. H. Newton had a few friends in while Miss McNaught was her guest, to do some sketching with Mr. Newton as model.

Miss Norma Swanson celebrated her 12th birthday with a "poverty party" on Tuesday evening. Thirteen of her "battered and torn" friends enjoyed themselves hugely, and the most rugged one, Alice Henning, won a prize.

Ivor Larson of Wembley was a business visitor in Grande Prairie on Wednesday and Thursday.

Joe Steink of North Kleisun was a visitor to the Prairie on Thursday. Gus, who is a breeder of Clydesdales, is making arrangements to purchase a pair of horses.

Ed Ludington of North Kleisun was a business visitor in Grande Prairie on Thursday. Ed, who pitched ball in the old Northern League, still takes a deep interest in all phases of the game.

"Slim" Finch of Flying Ship spent a few hours in Grande Prairie on Thursday.

BORN AT MUNICIPAL HOSPITAL. To Mr. and Mrs. R. Watson, Grande Prairie, February 23, a boy.

To Rev. E. G. and Mrs. Wildegrube, Wembley, February 27, a girl.

To Mr. and Mrs. Colin Jebb, Grande Prairie, February 28, a girl.

Natives Of . . . (Continued from Page One) — ridges, which positions afforded them protection from attack of other tribes.

In answer to a question, Mr. Pratt said that, speaking generally, New Guineans are very fertile and all tropical products grow in abundance.

The rainfall for the year averages from 300 inches in some parts to 30 inches in others.

Reporter: "What about the topography of the country?"

Mr. Pratt replied that the island was very mountainous and some peaks rise as high as 14,000 feet. There are huge rivers. The Fly, for instance, is navigable for 300 miles for 600 tons and is 20 miles wide at its mouth.

Reporter: "What about the mineral deposits?"

Mr. Pratt: "Considerable gold is being taken out of the island. It is due to the nature of the bush and the equipment had to be carried by plane. This was a tremendous undertaking. There are indications of copper, iron, and other minerals.

Pressed for more information about the natives, Mr. Pratt said that they eat all kinds of fruits and their meat is cooked in a variety of ways. Crocodiles, with which the natives are also found on the island.

In the opinion of Mr. Pratt, there is a real future for New Guinea. He is a real future for New Guinea. He is a real future for New Guinea.

Mr. Pratt who is a graduate of the University of Alberta, will return to New Guinea in about two months.

BUFFALO LAKES

WELL-KNOWN LECTURER TO SPEAK HERE

The Rev. James Leonard McGuire will speak in the Buffalo Lakes Community Hall on Sunday afternoon, March 5, at 3.30. The general public is cordially invited.

G. P. PRESBYTERY TO MEET IN GRANDE PRAIRIE, MAR. 7-9

The winter session of the Grande Prairie Presbytery of the United Church will convene in Grande Prairie at St. Paul's Church, March 7 to 9. Delegates, both ministerial and lay, will come from as far north as Montrose, B.C., taking in the towns of the Peace River Block, and the district in Alberta south of the Peace River.

Dr. Thomas Powell of Calgary, the superintendent of missions, will be present to give the year's special visit in the person of Rev. R. W. Dalgleish of Clearbrook, Alberta.

Mr. Dalgleish, acting president of the Alberta Conference of the United Church, will preach in Grande Prairie on Thursday, March 9, and will also address a public meeting, to which everyone is invited, on Tuesday, March 7, at 8 p.m.

The meeting will be held in the church. He will also speak in Sexsmith on Thursday, March 9.

The chairman of Presbytery, Rev. E. R. Ramsay of Sexsmith, and the secretary, Rev. Newman J. Truxan of Wembley, are preparing a program of interest to all who care to attend the meeting.

Mr. Dalgleish will lead a discussion and deliver an address on the theme, "What is the Church's responsibility in the present world?"

Mr. Dalgleish will also speak on the "Personal Problems of the Minister," and the "Madras Missionary Conference and the Problem of the Minister."

Mr. Dalgleish will also speak on the "Personal Problems of the Minister," and the "Madras Missionary Conference and the Problem of the Minister."

These meetings are open to all interested persons, and the public is cordially invited to attend.

Rev. James . . . (Continued from Page One) — McGuire said that it was as old as the hills. It was his ugly face that was the cause of his being opposed to it on economic grounds.

He said that it was not work for God-given liberty, which is the natural order of things.

Reasoning further, Rev. McGuire said that the trouble with the world is that it is not working for God-given liberty, which is the natural order of things.

Rev. McGuire, in referring to the natives of Australia, and as the country has been gradually modified to a point where it is getting to be a bit like Canada, and the cultural civilization, adding that the natives are still in the process of being civilized.

During the question period the speaker contended that Fascism and Nazism are a part with Communism, for the reason that all function under dictatorship, and for that reason they are all the same.

What is the way out? asked the speaker. "We must be constructive. Christianity is the only way out of the difficulties in which the world finds itself today. A living wage can only be obtained by people being permitted to own property, and which there is no security. The problem is to get back to a proper distribution of production, on the basis of the whole question is to get the small man back to a position where he becomes self-sustaining."

Continuing, Rev. McGuire said that the trouble with the world is that it is not working for God-given liberty, which is the natural order of things.

The speaker advocated the re-establishing of the old basis of morality, religion and the laws of justice. He further advocated the organizing of co-operatives and credit unions as a way out, pointing to the wonderful growth of co-operatives in Nova Scotia and how the idea is spreading to Quebec and Ontario.

In answer to a question regarding Premier Aberhart and his Social Credit scheme, Rev. McGuire replied that he did not know, but he said that the Social Credit scheme was a good one, and that it was a good one.

Rev. McGuire defended the padlock law in Quebec, which he said, was put into effect because the Communists were undermining the constitution of the country. There is a difference between liberty and

license. The Communists want license and for that reason he believed in the padlock law, which would like to see applied all over Canada.

During the evening the school chorus sang two delightful numbers. A duet by two young ladies was also excellently rendered.

MEETING OF C. O. I. T. On Tuesday the C.O.I.T. meeting opened with the purpose of discussing the year's special visit in the person of Rev. R. W. Dalgleish of Clearbrook, Alberta.

As our mission book, "Calling All Canada," arrived, our project has been changed to a more practical one. Our mission work, which is going to prove very interesting. A committee of Jean Clark and Olive Kowensky was chosen to handle the work of these services.

Maxine Valling moved the business meeting adjourn. Closed by singing "Taps." C.O.I.T. Reporter.

M.P.H.A. WEEKLY BROADCAST. Good evening Monksman Pass Highway friends. The San Francisco Exposition was opened.

Recently one of our popular magazines carried an article on the Lincoln Highway which runs from New York to San Francisco. The article seems so like our own. The first car was built in 1913 in thirty days travelling time. Today they make the same trip in less than three days.

Carl G. Fisher was the man who visioned this road. He had a hard time to get a road built for \$10,000,000. In the accompanying photographs you see similar problems of our own. One picture looks exactly like the one I am sure you have seen more than in fact so much so it could be called a distressing highway.

A good deal of the work was done by the Pacific Highway and the Pacific Highway. The 1915 Road Guide of the new Lincoln Highway was the motorist's ward over the meandering turn-pikes of the west, the fair weather road of Wyoming until it got into the mountains. He told him, "If trouble is experienced build a safe road. It will come with a team. He can see you twenty miles off."

Now, I don't think we have a Mr. Thomas, but we have a Mr. McGuire, who is a real future for New Guinea. He is a real future for New Guinea.

In his latest reached San Francisco, all might be called trail-blazers. They dipped their wheels in the mud of the Pacific Highway. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

They were the first to see the road. They were the first to see the road. They were the first to see the road. They were the first to see the road.

SCENIC HEIGHTS

BIG HORN ANNUAL SCHOOL MEETING

SCENIC HEIGHTS, Feb. 27—Last Saturday afternoon the annual meeting of the Big Horn D. No. 312 was held in the school-house at 2 o'clock.

The meeting opened with Chairman N. B. Edgar in the chair. The minutes were read by the secretary, B. Thorne, and the business of the meeting proceeded in the usual order.

Mr. U. Powell made up the other member of the board, which has shown no lack of interest in school affairs since the formation of the larger unit of administration.

Last year saw the erection and completion of a fine new school barn at Big Horn, made possible only by the joint action of the local board and the division.

While it is true that the local boards have been stripped of their administrative powers, they can still perform a very valuable service in acting as the medium between the district and the divisional board.

The matter of providing a supply of water and fuel has also been left to the hands of the local board, which minor repairs to school in general.

With the same cooperation as has been shown in the past, it is expected that the school will continue to serve without disturbance.

ORATORICAL CONTEST MEETS WITH FINE RESPONSE

With the grand display received, keen competition is expected in the forthcoming Oratorical Contest, which is to be held at the Big Horn Community Hall, on Friday evening, March 10. It is intended to be a contest of the highest order.

The judges will be selected from the audience, and an effort will be made to make such selection representative of the districts concerned.

Some additional information follows: (1) The subject should be informational rather than argumentative. (2) The subject should be correlated with Social Studies, Science, Health, etc.

(3) The teacher may assist in correcting the subject, and in other ways improve the platform. (4) The subject should be of about 2,000 words. (This would be about 4-8 pages of foot-caps.)

(5) The teacher may assist in correcting the subject, and in other ways improve the platform. (6) The subject should be of about 2,000 words. (This would be about 4-8 pages of foot-caps.)

(7) The teacher may assist in correcting the subject, and in other ways improve the platform. (8) The subject should be of about 2,000 words. (This would be about 4-8 pages of foot-caps.)

(9) The teacher may assist in correcting the subject, and in other ways improve the platform. (10) The subject should be of about 2,000 words. (This would be about 4-8 pages of foot-caps.)

(11) The teacher may assist in correcting the subject, and in other ways improve the platform. (12) The subject should be of about 2,000 words. (This would be about 4-8 pages of foot-caps.)
